# CONDUITCONNECT™

Introducing Dura-Line's latest innovation in conduit coupling

The latest in Dura-Line's coupler collection, the ConduitConnect is specifically designed to meet the rigorous demands of duct bank installations and your go-to solution for a wide range of electrical and telecom applications. Whether you're working with HDPE or PVC sticks or continuous length reeled products, this coupler delivers a secure, reliable connection every time.

**FEATURES**

- ▶ Ideal for joining lengths of HDPE or PVC Sticks but can also be used with continuous length, reeled products.
- ▶ Air- and water-tight with a pre-lubricated gasket for easy installation
- ▶ High strength HDPE body is ideal for buried duct applications
- ▶ UV resistant
- ▶ Superior pull-out strength
- ▶ Specialized for use by electrical installers requiring ETL/UL certification
- ▶ Patent pending
- ▶ Additional sizes coming soon

- 4" and 6" ETL Listed / Conforms to UL Standard 514B
- 4" and 6" ETL Listed / Certified to CSA Std. C22.2 18.3-04
- 3" listings available soon
