

## MICROTECHNOLOGY ACCESSORIES

# STRAIGHT COUPLERS

- Easy assembly/disassembly, no tools required, low profile design
- Provide an air and water tight connection
- Designed and tested to meet or exceed industry standards
- Color coded to easily identify by size
- Available for all Microduct sizes 5mm–27mm
- Specially designed to ensure a smooth interior transition
- Withstand chemical and harsh environment conditions
- "HD" or "Heavy Duty" denotes enhanced pull-out and pressure characteristics (currently size 18/10 next page)

5/3.5mm (OD/ID)  
Straight Coupler

PART #  
20001462

6/4mm (OD/ID)  
Straight Coupler

PART #  
20004725

7mm (OD/ID)  
Straight Coupler

PART #  
20001463

8/6mm (OD/ID)  
Straight Coupler

PART #  
20003948

8.5/6mm (OD/ID)  
Straight Coupler

PART #  
20001834

10/8mm (OD/ID)  
Straight Coupler

PART #  
20001831

12/8mm (OD/ID)  
Straight Coupler

PART #  
20001833

12/10mm (OD/ID)  
Straight Coupler

PART #  
20005069

MICROTECHNOLOGY ACCESSORIES

# TRANSITION COUPLERS

- Easy assembly/disassembly, no tools required
- Provide an air and water tight connection
- Transition couplers available to provide coupling of different diameters
- Designed and tested to meet or exceed industry standards
- Color coded to easily identify by size
- Specially designed to ensure a smooth interior transition
- Withstand chemical and harsh environment conditions

7mm x 5mm
