

MICRODUCT PULLING EYES AND HARNESSES

Made from Zinc coated Carbon steel, MicroDuct Pulling Eyes facilitate the quick placement of MicroDucts. The hex head design allows for faster and safer installation and removal from the duct.

The Pulling Harnesses are made from stainless steel and can accommodate up to 4 Micro Pulling Eyes at a time and have staggered eyelets every 4 inches.

- ▶ **MicroDuct Pulling Eyes are available in 4 sizes** to cover full range of MicroDuct ID's.
- ▶ **Pulling Harnesses are available in 2 sizes:**
 - 2mm Harnesses support a 1,600lb total pull strength
 - 4mm Harnesses support a 3,200lb total pull strength
