Product Compliance Guide

This document outlines Dura-Line’s product compliance with The Build America, Buy America Act, which applies to all projects funded by The Bipartisan Infrastructure Law, including The BEAD Program.

Under BABA rules, construction materials and manufactured products must be manufactured in the US. Furthermore, US-mined, -produced, or -manufactured components must represent at least 55% of the total cost of manufactured products.

Please note, BABA compliance requirements must be stated on your purchase order, otherwise compliance cannot be guaranteed.

If you do not see your product listed, it may not be compliant. For more information, please contact your local Dura-Line representative or email moreinfo@duraline.com.
